

RPOST

PATENT/TRADEMARK NOTICE

Securing Email and Digitizing Workflows

RPost is a global leader in secure and certified electronic communications, built upon its patented RMail®, RSign®, and Registered Email™ delivery proof, email encryption, e-security, and e-signature technologies. Millions of users have enjoyed RPost services in more than 100 countries, since 2000.

Patent Notice

RPost patents are generally in the fields of electronic messaging analytics, tracking, non-repudiation, security, e-signatures, and collaboration. **In total, the Company has been granted and/or holds rights to more than 50 patents issued in 23 countries. RPost has commercialized these patents within its RMail® e-security, RSign® e-signature, and Registered Email™ delivery proof services.**

Below is a list of some of the RPost patents that have been granted. RPost has additional patent applications that are pending. Pending patents are not included in the list below. A complete list is available upon request.
